

# Love has a thousand faces

*—a mother with her new-born child*

*—a child's concern for  
an injured playmate*

*—a family called quickly together  
to help one member in distress*

*—a stranger given sympathetic care*

*—a loved one returned to health*

Every one of these faces, and more,  
shows itself daily in a hospital.  
That's why we hope sincerely  
that the new Torrance hospital  
planned by the Little Company of  
Mary soon will be under way.

Torrance has grown—so have  
its needs. As one of the Torrance  
industrial family, we're fully  
confident that, with all industry  
helping, this hospital can be  
serving Torrance next year.
